ARA Mini-Bikes

Trail Boss Part #1999003

- 4 H.P. with 20 degree slant Tecumseh engine, chrome-plated 10" wire spoke wheels, capable of climbing a 30 degree incline.
- Heavy duty internal expanding brake for more positive braking power, brake rod on right side for extra ease of operation.
- Heavy duty 3:50 x 10" tires with 40% more tire surface on the ground provide additional ground clearance, greater traction and more effective braking action.
- Plastic handlebar grip with built-in kill switch.
- Superior front fork axle housing, steel bushing in fork pivot for easier steering reaction and longer life.
- Front shock employs upper tube larger than lower tube to act as shield against rain, dirt and trash accumulation.
- 30 day warranty on power train, 90 days on rest of mini-bike.

Trail Blazer Part #1999002

- 4 H.P. Tecumseh engine with 6" wheels, centrifugal clutch for better and more comfortable approach toward conquering 25 degree inclines.
- Steel brake pad provides positive braking action, brake rod on right side for extra ease of operation.
- Durable steel roller chain minimizes sprocket and clutch wear.
- Superior front axle housing, steel bushing in fork pivot for easier steering reaction and longer life.
- 30 day warranty on power train, 90 days on rest of mini-bike.

Trail Scout Part #1999001

- 3½ H.P. Tecumseh engine, 5" wheels, automatic centrifugal clutch for climbing grades up to 20 degrees.
- Steel brake pad provides positive braking action, brake rod on right side for extra ease of operation.
- Durable steel roller chain minimizes sprocket and clutch wear.
- Superior front axle housing, steel bushing in fork pivot for easier steering reaction and longer life.
- 30 day warranty on power train, 90 days on rest of mini-bike.
