

THE PERFECT COMBINATION
*
QUALITY - PERFORMANCE

Models S-125 and S-125 XX

For the skilled motorcyclist, ASM's "Special" models. The proud performer, strong and responsive, built for drivers who love action and prompt control on track or road.
Available in blue - chrome - black, the S-125 and S-125XX are equipped with the famous "4400" motor. The S-125's cast iron block cylinder produces 14 h.p. while its twin, the S-125-XX with aluminum cylinder, the block produces 14 h.p. These models reflect the same proven "Quality-Performance" of the ASM

New transmission of your ASM motor is a single shafted shafts to control which are advantage to you longer lasting.

Superior and higher are of first quality and specifications. With the exception of model C-25, all ASM motorcycles are equipped with chrome grade wheels.

ASM model S-125 is equipped with speedometer and tachometer, front and rear fenders, and passenger foot rests as standard equipment. Your ASM dealer will be pleased to give you a demonstration.

THE PERFECT COMBINATION
QUALITY - PERFORMANCE

1972 "ASM" MOTOR BIKES

It is no exaggeration to say that the 1972 ASM motorcycle is an unparalleled combination of "Quality-Performance". The manufacturers of ASM have left no stone unturned to ensure highest standards of quality. The 1972 line of motorcycles is not only in the running, but well ahead of the pack at every checkpoint. ASM engineers have availed themselves of the experience and competence of the very best foreign producers and have incorporated a few specially designed parts with many of the highest quality Canadian made parts, particularly connections and attachments. Several quality controls are exercised all along the assembly lines to ensure superior quality and reliability.

For maximum performance and service, all 1972 ASM models with the exception of the mini-motor C-30, are equipped with "SACHS" motors, the oldest and most experienced manufacturers of 2-stroke engines in the world. "SACHS" name and reputation are synonymous with "Performance and Service".

Oriental skill and German ingenuity put together under the vigilant eye and expertise of Canadians produce a perfect blend of "Quality-Performance". That is ASM 1972.

From the practical ASM C-30 to the rugged ASM TW-125, nine superb new models, skill and experience unite to delight the sportsman and the expert alike.

QUALITY — PERFORMANCE — DURABILITY

* Models TW-80 and TW-125

Always a leader in their field, ASM forged ahead and introduced this year their new 3 wheeled "ATV". Very sturdy and equipped with floatation tires, a "torque converter" transmission and one of the popular "SACHS" motors of either 80 c.c. or 100 c.c., these vehicles are safe, dependable and easily maneuverable by any member of your family.

Guarantee

Auto Ski Inc. warrants each ASM vehicle to be free from structural defects in material and workmanship under normal recommended use for the period of 90 days, from the date of delivery to the original purchaser.

The Auto Ski's obligation under this warranty will be limited to replacement of parts proven to be defective in material, workmanship and labor which parts have been exclusively by an Auto Ski ASM authorized dealer.
