SOLD BY

"LITTLE BUTCH" Mini-Bikes are far more vehicle than a bicycle — or the first mini-bikes — they're actually miniature motorcycles with many of their best features.

"LITTLE BUTCH" is right at home on all types of terrain — hot footing it along on the beach, on mountain trails, backwoods resort areas, dragging on empty lots and fields — as well as on the street (Models 505-T and 352-T are licensable in most states).

Select the model you like best — from the sporty new CHOPPER, the deluxe 505-T and 352-T to the low cost 351-T. Look them all over and you'll find that "LITTLE BUTCH" is not the most expensive, not the least expensive — but by far it is the BEST MINI-BIKE you can afford!
