Fine Quality Products of: **FOX CORPORATION**
Box 797DI, Janesville, Wisconsin 53545

Summer Edition

New Drive! New Dash! More fun than you ever expect!

Want the finest Mini-Bike in the world? You'll choose the FOX CAMPUS MODEL! You're selecting the sleekest, liveliest—most ready to GO bike ever made! With the class of the "big boys," the Campus bike handles like a road-racer, runs like the wind—will carve its way around corners like a "Daytona." Get the idea? Of course you do! Try a Fox Campus Bike—hop on! Blast off! You'll ride the most beautiful thing going! The Great One has all the features. Front and rear suspension, molded plastic contour fenders like the finest racing cars, plush saddle, gleaming hi-fi blue finish are standard and it's street licensable, too.

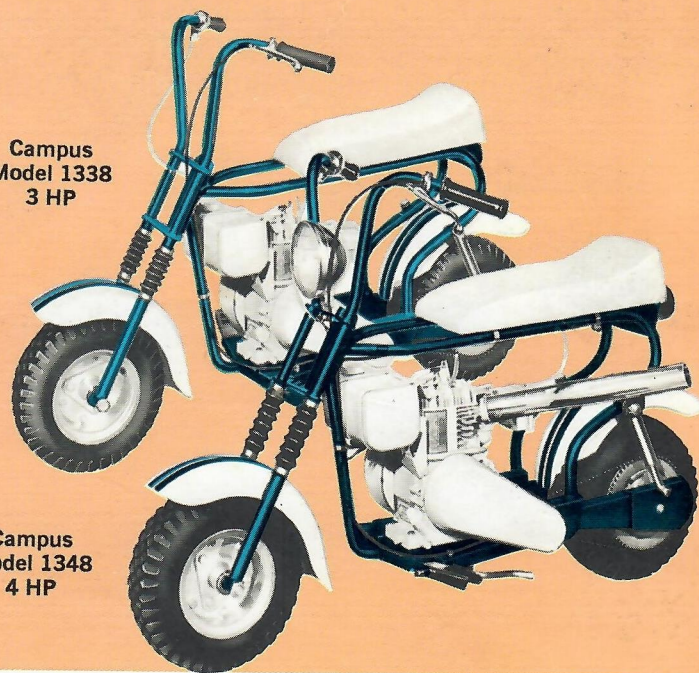

Campus Model 1378 with 4 HP engine (equipped as shown below with full motorcycle-type shroud and saddle, alternator lighting and tuned gleaming chrome tail pipe. **\$249.50***

Champion Drivers Everywhere Choose FOX for Quality, Styling, Handling & Value

Meet the FOX TRAIL BUG—the mini-bike that's built to "take it." Even dad will enjoy this one—rugged and ready for taking the trail following the meandering fishing stream or rough cross-country. Big oversize 14" tires, power gearing gives extra "go power" when the going gets rough (better clearance too). Outfitted with the 3, 4 or 5 horsepower engine—this brawny brute is waiting to go through, over or around anything! It's economical, too . . . gets up to 50 miles per gallon of gas which will even warm a scrooge's heart. Throw it in the trunk and head for the woods—or take off down the roadway cause it's street licensable.

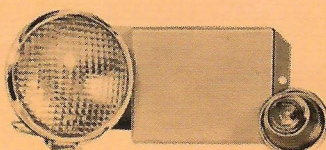

Trail Bug Model 1448 as shown below with alternator lighting, mighty powerful 4 HP engine and fat foam saddle seat \$224.50*

Trail Bug Model 1438 shown at right, with 3 HP engine. Lighting is optional—order kit listed below \$189.50*

Trail Bug Model 1458 with 5 HP engine. Lighting is optional—order kit listed below \$219.50*

No. 250-756 Light Kit to fit Mod. 1438 — 1458 includes headlight, tail and stop lights, battery box, wiring \$16.95

250-355 Battery for above, powerful 6 v. dry \$ 2.95

Optional lighting
for Models 1438
& 1458

Build your own Doodle Bug or Sprite Mini-Bike with a FOX kit!

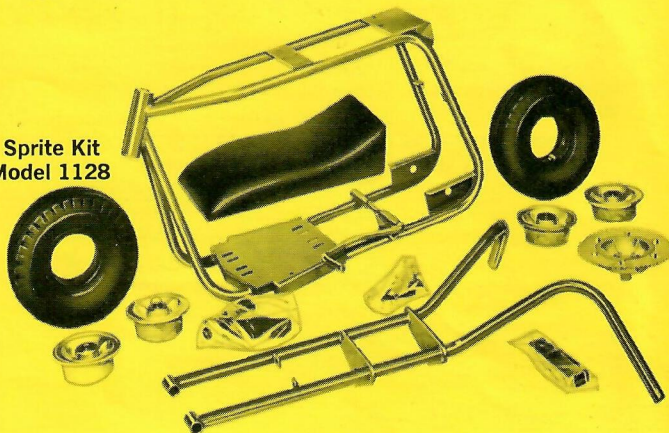

Optional
Lighting
Kit

Add this
Powerful
3 HP Engine

Sprite Kit
Model 1128

Deluxe Lighting Kit

This complete outfit makes bikes licensable in most states. Order battery separately.

250-756 fits Doodle & Trail Mod. 16.95
250-701 fits Campus bike 16.95
250-355 Battery big 6 volt 2.95
Lighting outfit not available to fit Sprite model.

Powerful 3 HP Engine and Drive Kit

Put this tiger on the do-it-yourself model that you build. Fits Sprite and Doodle Bug models. Produces 3 horsepower at 3600 rpm. Delivers up to 50 miles per gallon. Comes complete with full chain guard for safety.

250-753 Engine & Drive Kit \$51.95*

(Sold only with Bike Kit)

Sprite Model Kit 1128—For the Do-It-Yourselfer

All you need is a wrench, a screwdriver . . . something to color me red and an old lawn mower engine to turn every weekend into a ball. Fox furnishes everything else including simple instructions. If you need the engine and drive kit—the one described at left will put a tiger on your bike. It's a Sprite dandy!

Sprite Kit Model 1128 \$79.50*

Doodle Bug Kit

Everything's included except the engine & drive kit

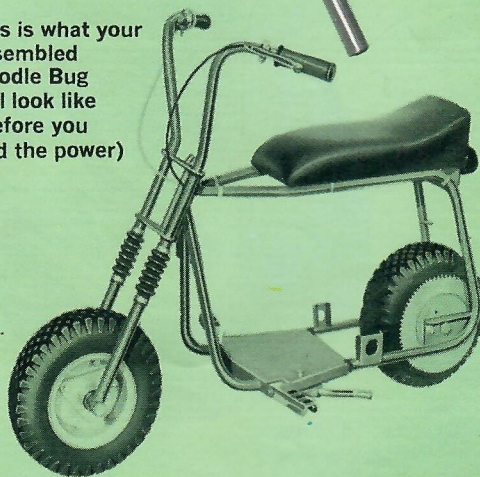

Heavy duty coil spring shocks
smooth out bumps

Doodle Bug Model 1228 Kit with Front End Coil Suspension

You've got the idea! Take a wrench, screwdriver, paint, your own power plant plus this Doodle Bug Kit and watch the "hottest thing going" take form. If you need a power plant and drive kit, it'll be smart to add the one described above. This is a lively one—and you'll have one of the liveliest bikes going. It's licensable . . . when you are, if you add the deluxe lighting kit found on this page. This is one of the BIG bikes—with 12" tires, big 34" wheelbase . . . it's 46" long! Real brakes, too.

Doodle Bug Kit Model 1228 \$99.50*

This is what your
assembled
Doodle Bug
will look like
(before you
add the power)

For a real blast . . . straddle the saddle of a FOX Mini-Bike!!!

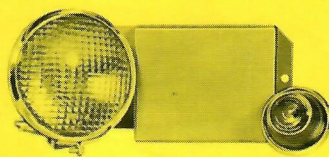

Here's the liveliest one—the FOX DOODLE BUG! It'll win any frog jumpin' contest hands-down. Once you get on one, you won't want to get off. It's powered with your choice of a lively 3 or 4 horsepower engine that will take the hills or trails like a breeze. The fat foam saddle seat smooths out any of the bumps not already eliminated by the heavy duty coil front suspension. Of course, it's licensable!

When junior's ready to replace the red wagon—say like 10—he's all set for the FOX SPRITE! It's a strictly "off the street" model—but really a charger with the souped up 3 horsepower engine. No small baby either . . . big 10" tires, 34" wheel-base and 44" long. He will have more fun than a barrel of Elmer Fuds.

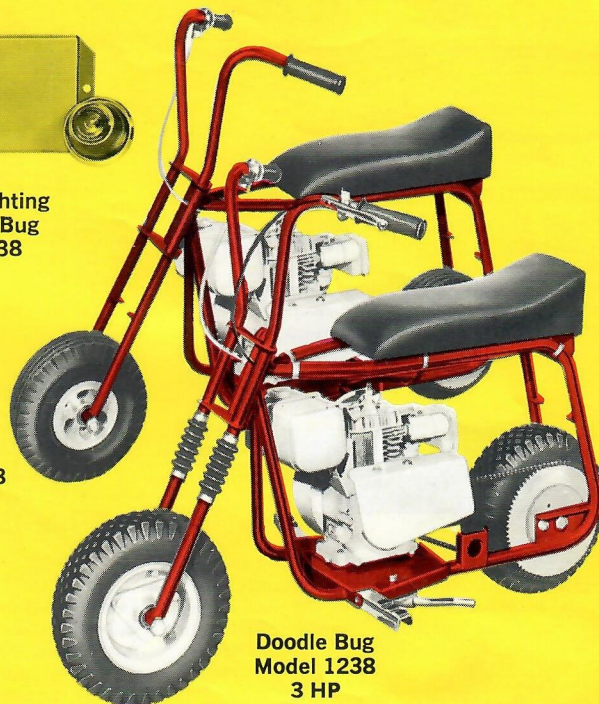

Doodle Bug Model 1248 equipped as shown below with 4 HP engine, alternator lighting, foam seat **\$199.50***

Doodle Bug Model 1238 with 3 HP engine **\$179.50***
