*Available in Assemble-it-Yourself Kit.

SPECIFICATIONS

4" mag type wheels, baked enamel finish. New curved-grip braking pads. Naugahyde upholstery, reverse Ackerman steering. 10" knobby tires.

OUTLAW

Hit the groove with the tough machine! The 'Outlaw' makes mini-riding an all new experience—the ultimate in handling. 6" mag type wheels with a 14" rear tire and jackshaft drive are standard on this one.

SPECIFICATIONS

Black krinkle painted front fork, high rise chrome handle bars standard on Outlaw I. 127cc Engine. Solid chrome fork standard on Outlaw II. Rear shocks, 6" mag wheels, super foam contour seat, sport-disc brakes, illustrious "GASTRIC GREEN" baked enamel finish.

Available in Assemble-it-Yourself Kit.

BLAZ'R

Great fun is the name of the game on the new mini-priced Blaz'r. 127cc engine makes for fast action on this little beauty. Mag type wheels, 10" tires, removable sprocket, paddle brake make this one a great buy!

MODEL 700

(Available in Assemble-it-Yourself Kit)

The Trail King; 6" mag-type wheels and 12" knobby tires for maximum ground clearance, plus 172 c.c. engine, all on the compact "Lil" Indian frame. Hit any hill or trail with this one and see for yourself why the Model 700 is king-of-the-hill. Cushionaire handle grips, kick-stand, Radical Red paint, pleated deluxe seat, full painted chain guard, all standard on kit and assembled models. (See specifications.)

MODEL 600

(Not Available in Kit Form)

Chief of the Century Tribe; 127 c.c. dependability combined with Mini-Matic 2-speed automatic transmission. Knows when to shift for you, stays in low (9.6 to 1) on hills, shifts to high (5.0 to 1) when the power is no longer needed. Drops back into low anytime it's required—automatically. Mag-type 4" wheels and 10½" knobby tires, cushionaire handle grips, kickstand, "Yegg" Yellow paint, pleated deluxe seat, full chain guard are all standard. (See specifications.)

MODEL 500

(Available in Assemble-it-Yourself Kit)

The features you want, at the price you had hoped for. The top value in the Century Line, with all the reasons 'Lil' Indian is known as the most rugged mini-bike available. 127 c.c. engine. Mag-type 4" wheels and 10" knobby tires, motorcycle twist grip, steel painted fenders, deluxe naugahyde seat, and full painted chain guard standard on both kit and assembled models. "Gastric" Green paint. Kickstand on assembled models only. (See specifications.)

MODEL 450

(Available in Assemble-it-Yourself Kit)

Performance and safety of the more expensive units but priced for the mini-wallet. Everyone in the family can enjoy this one; on the beach, over trails, or just plain kicks. Powered by a full 127 c.c. engine, stopped by a spot disc brake. Standard features on both kit and assembled models include mag-type 4" wheels and 10" tires, coil spring front shock absorber, and "Radical" Red paint. (See specifications.)

MODEL 400

(Available in Assemble-it-Yourself Kit)

This model shows all the reasons the 'Lil' Indian continues to be the top value in the mini-bike field. The perfect marriage of Scrooge prices and Rockefeller features. Heavy 12 gauge tube steel frame, mag-type 4" wheels and 10" knobby tires, front coil spring shock absorber and 127 c.c. engine are standard on all kit and assembled models. (See specifications.)

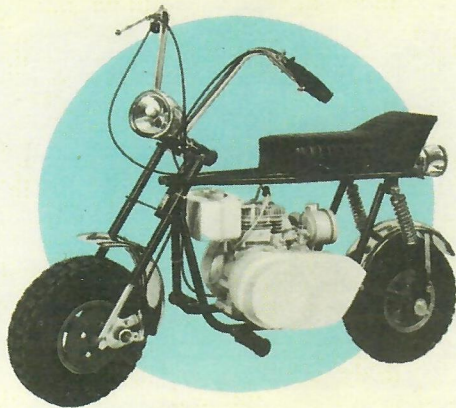

MODEL 7000

(Not Available in Kit Form)

The class leader, designed for the grounded jet-set. Bold new styling includes cycle-styled pleated seat, 172 c.c. engine, Yegg Yellow paint, front and rear spot-disc brakes, chrome folding handle bars, ~~chrome exhaust, headlight, taillight and stop light;~~ torque converter. ~~This unit is street legal in most states.~~ If off-the-road use is your bag, the full front and rear suspension and huge 14" tire on 6" mag-type wheels will take the punishment for you. (See specifications.)

MODEL 7000 A

(Not Available in Kit Form)

Same as Model 7000 equipped with a torque converter drive system and spark arrestor exhaust muffler. An alternator lighting system offers true motorcycle illumination. Designed for fast action on the trails plus the ultimate in equipment makes this one a super-deluxe "going machine".

MODEL 6000

(Not Available in Kit Form)

Meet the "Plus" machine. 172 c.c. engine with Mini-Matic 2-speed automatic transmission gives brute hill climbing power. "Plus" economy and speed on all level terrain. The list of standard "Plus" equipment includes mag-type 6" wheels and 14" knobby tires, spot disc brake, oversize pleated seat, chrome folding handle bars, folding foot rests, "Radical" Red paint and many other features. We're inviting comparison, but the competition is wisely not encouraging it! (See specifications.)

MODEL 5000

(Available in Kit Form)

Big, Bold and Beautiful, the best way to tell your friends about this 'Lil' Indian. Styling and features patterned after the big bikes, at trend breaking prices. Rugged 127 c.c. engine drives through a single-speed jackshaft to our big 14" tires. Standard features include full suspension, 6" mag-type wheels, chrome folding handle bars, "Gastric" Green paint and pleated cycle-styled seat. (See specifications.)

MODEL 4500

(Available in Assemble-it-Yourself Kit)

More than you hoped for at a price that everyone can afford. This model comes complete with a telescopic front suspension with rubber boot, mag-type 6" wheels and 12" knobby tires, "Yegg" Yellow paint, full chain guard and deluxe pleated seat. New cycle-type controls. (See specifications.)

MICHRINA ENTERPRISES

The Kit Masters

The "Lil" Indian is proof that pleasure can be inexpensive. A lot for a little, is the best way to describe these popular mini-bikes. The whole family can take advantage of those backwoods trails or other previously inaccessible areas.

There's positive go power on all models—yet amazingly economical. Positive stop power is assured with spot disc brakes.

"Lil" Indian Mini-Bikes are the ultimate in handling ease, portability and dependability. Compare the "Lil" Indian with other mini-bikes and you'll be a "Lil" Indian owner.

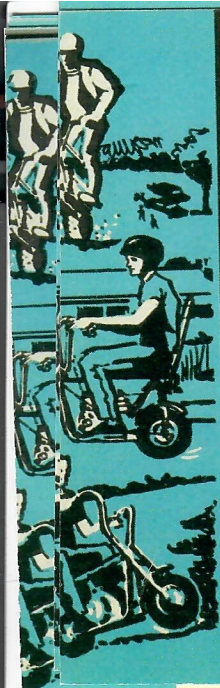

5000-KX

Each "Lil" Indian Mini-Bike Kit (like the 5000-KX shown) comes completely welded and ready to assemble. No special tools are required for assembly. A set of instructions, arranged in simple step-by-step format, are also enclosed. Each kit carries the "Lil" Indian warranty against defects in workmanship and materials.

Buying a "Lil" Indian kit not only saves money on the initial purchase price, but also enables you to understand the operation of these remarkably rugged units.

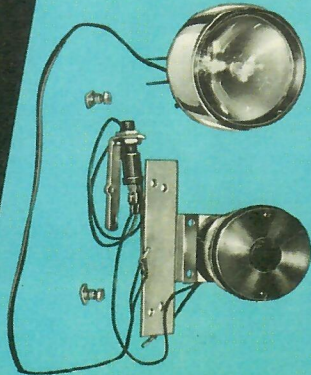

CUSTOM-BUILD YOUR "LIV" INDIAN

*Why not...
with
these
accessories*

Light Kit

Complete with headlight, tail-light, stop light, all wiring and brackets. Battery charged for consistent light supply and is adaptable for any mini-bike.

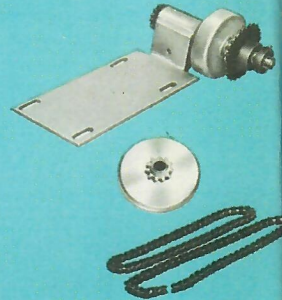

Rear-View Mirror

Check for traffic with this 3" round mirror. Included is a reflector and clamps for attaching to handlebar.

2 Speed, Mini-Matic* Automatic Transmission

Now available as a conversion kit. Will fit most other mini-bikes without modification. Upshift and downshift is completely automatic. Make your mini a sizzler!

Power in low gear for hills, speed in high gear for roads. (Standard on models 600, 6000).

**Patent Pending*

Front Wheel Disc Brake

fits easily to our Grand
series Mini Bikes (7000,
8000A, 6000, 5000, 4500).
It comes complete with
brake handle, cable, disc
and necessary fittings.

Bugle Horn

They'll all know you're
coming with this bulb
operated horn. Com-
plete with handlebar
clamps.
