# Tame 'em if you can!

Maverick's new 1971 wild looking, wild wheels  
for the wild breed. Savage stallion power  
Thundering thoroughbred speed  
Muscular mustang stamina

Listen guys.

Think twice before you straddle a Maverick.

But if you want to head up the action, then you've got to be riding a Maverick. Just one thing — you've got to tame it first.

• Fuji 53cc 2 stroke 1 cylinder blower cooled • torque converter • gear ratio 6:1 final drive • 420 chain • front/rear shocks • fold down handle bars • knobbies • extra long foot pegs.

*First two out of the 1971 corral*

# For Really Rolling

This big little beauty has the heart and stamina of a lion...plus the sure-footedness of a mountain goat...and the nice easy motion and glide of a sea gull in a blue sky. For the trail or the street, for up hill or down dale, the MAVERICK gives the best ride there is....get on one and roll, really roll.

FOR THE  
RIDE  
OF YOUR  
LIFE...

## EAST ON MAVERICK III

This is the hottest import bike now available in America... It has the rugged heart and stamina of a lion... with the sure-footedness and thrust of a mountain goat... all with the nice easy motion of a seagull in a blue sky. The powerful engine (4.5 HP - 2 Strokes), dual brakes, front and rear shocks, and a big comfortable seat give a ride like you've never had on a bike... any kind of a bike.

## WEST ON MAVERICK II

A strong, sturdy, American made bike, designed and built to roll like a ball and climb like a cat... a carefully worked out engine (3 HP - 4 Cycle) ratio to weight, plus front and rear shock absorbers, gives the rider a sure, soft, comfortable ride... dual brakes gives the bike a positive reliable braking system for all-the-time road safety. Get on and take a ride. You'll never want to get off.
