

TACO

MINI-BIKES

Careful design and meticulous construction set the TACO series mini-bikes apart in a class of their own, head and shoulders above the crowd. TACOs are complete, planned ahead for whatever use you may require. Look at these top quality features: Telescopic spring front forks • Chromed springs • Wide-base 5-inch alloy wheels • Sealed precision bearings • 1 1/2-inch o.d. tires with studded tread • Heavy-duty innertubes • Large comfortable seat • Pleated Naugahyde upholstery • Quiet muffler • Ignition 'kill' switch • Air filter • Automatic recoil starter • Automatic, 4-inch centrifugal clutch • Pre-stretched drive chain • Motorcycle twist throttle • Heavy-duty braided control cables • Rubber covered footrests • Folding sidestand • 1/2-gallon gas tank • Scratch resistant, baked-on metallic paint • Springy, 1-inch, heavy-wall tube frames • All TACO mini-bikes are 47 inches in over-all length on a 38-inch wheelbase. They are 30 inches high to the tops of the 2-foot wide bars, 23 inches to the top of the saddle. Guarantee of the frames and forks as to defective materials or workmanship is made to the original purchaser, including premature failure under normal solo operation. Liability is limited to replacement of defective parts only; connected labor and shipping charges not covered. Engine Warrantee is made only by the manufacturer.

TACO CHASSIS ASSEMBLIES

(less engine, clutch and chain)

- T22CA TACO 22 chassis assembly \$89.95
- T44CA TACO 44 chassis assembly 120.00
- T99CA TACO 99 chassis assembly 120.00

44

Ultra-new concept in light-weight, compact transport combined with robust power and fully sprung suspension, TACO 99 hits the scales at a mere 85 pounds in fighting trim. Its 4-cycle Briggs-Stratton engine delivers 5hp with stump-pulling torque in 8:1 drive ratio through a jackshaft permitting fast adjustments of sprockets for riding conditions. Simplicity of design contributes to low over-all weight and greatest frame strength. Swing arm rear suspension is of full-scale motorcycle principle for utmost ride control and handling. Already a compact, instant removal of the frame/fork pivot bolt allows stowage in limited areas aboard plane or boat, trailer, camper or in luggage area of family car. Speed: 35-40 m.p.h.

... and the new **TACO 99**

MISCELLANEOUS PARTS

RAT71	twist throttle	2.95
TC103	throttle cable assy., 3 ft.	1.25
SBL5P	hand brake lever	1.75
BC205	brake cable assy., 5 ft.	2.45
350X5T	knobby tire — 410 3.50x5	7.00
5T5R	innertube — 3.50x5	2.25

Incorporating the latest technical advances over the Model 22, basic specifications including engine are the same. TACO 44 incorporates a swinging arm rear suspension. The jackshaft power transmission permits wide variety of gear reduction ratios. A dual-shoe internal rear brake operates from a chromed hand lever.

GS10-11	clutch — 5/8-in. shaft	14.95
GS12-12	clutch — 3/4-in. shaft	14.95
T35-48	chain, #35 — 4 ft. length	4.40
T35CL	chain connector link, #35	.25
JSK35	jackshaft kit	10.50
35B12F	sprocket — 5/8-in. bore x 12T	2.00
35B15F	sprocket — 5/8-in. bore x 15T	2.50

22

\$139⁵⁰

Hop aboard Steen's TACO 22, a penny-pinching, practical barrel of fun from its low initial cost to miserly miles-per-gallon operation and meager maintenance. TACO 22 fits a 3 h.p. Briggs-Stratton 4-cycle engine in its cradle frame of heavy wall, 1-inch tubing. A direct drive, automatic clutch gives 6.5 pulling ratio to the 11½-inch studded tire for 25-30 m.p.h. speeds. Stopping power is by a foot operated friction brake. Curb weight is just 74 pounds, with a full ¾-gal. gas tank. The deluxe TACO 22DB is fitted with a hand-operated drum brake system. \$154.50.

Frijole

ECONOMY MINI-BIKE KIT

Pre-welded frame, forks. You weld engine mount to fit your engine. Includes tires and tubes, 5-in. wheels, 70T sprocket, twist throttle, friction brake, saddle. Complete except engine, clutch, chain.

- FCK50 FRIJOLE kit, complete 49.95
- FKD60 FRIJOLE kit, complete w/drum brake 59.95
- ECK3 engine, 3 hp, 4-cycle 68.50
(includes clutch and chain)

TACO CHASSIS COMPONENTS

- T21 front spring fork assembly 14.95
- ART15 deluxe long saddle 9.00
- T20 front wheel and tire assembly 14.75
- T24 rear wheel, tire, brake & sprocket 30.00
- T23 rear spring suspension units (pair) 8.00

FRIJOLE PARTS

- FFF70 frame and forks only 18.95
 - FF77 forks only 9.00
 - FF78 frame only 10.00
 - FMM79 engine mount plate 2.50
 - FBS80 friction brake shaft 2.00
 - ART10 short saddle 6.00
 - W5K11 front wheel and tire assembly 13.75
 - T31 rear wheel, tire and sprocket 19.50
- (all other parts same as TACO)
